Columbia University: Arts & Sciences
A&S Spring 2021 B and Full-Term Standard Evaluation

Course: ECONUN3412_001_2021_1 - INTRODUCTION TO ECONOMETRICS: ECONW3412_001_2021_1_115727

Instructor: Seyhan Erden

TA: Bailey Kraus,Nathaniel Mark,Rachel Forest,Matthew Davis,Jongho Lee * ,Roberta Tabajara

Response Rate: 93/137 (67.88 %)

---

1 - What are the strengths and weaknesses of Jongho Lee (discussion section leader, lab section leader, grader) as an instructor, and how might Jongho Lee's teaching be improved?

Response Rate	8/137 (5.84%)

• great

• Jongho is a phenomenal TA. His recitations and office hours were instrumental to my success in the course. He is very intelligent and can answer anything you ask him about a homework problem in very very simple and digestible terms — I had many "a-ha" moments in Jongho's recitation and office hours.

• Jongho's strength is his clarity and detailedness in taking us through every single step of solving a question.

• Very good

• This man is the man. He is more than happy to help students.

• all the TAs have done an amazing job, and their presence was very important and without we felt very bad, thanks god they came back!

• THe best

• Jongho was my recitation leader and I attended his office hour frequently. He was very effective in teaching STATA programming and showing examples in the actual program, and I owe most of my learning in STATA to him. Additionally, Jongho had a sparsely attend recitation, so the students who chose to attend could always ask questions they had, and his office hours were at reasonable times in the week which made him more accessible than most of the TA's. I owe a large portion of my learning in this course to Jongho.
