Response Rate:	53/74 (71.62 %)

1 - What are the strengths and weaknesses of Jongho Lee (discussion section leader, lab section leader, grader) as an instructor, and how might Jongho Lee's teaching be improved?

Response Rate	5/74 (6.76%)

• His slides are very informative!

• One of the best TA. He gave clear explanation. He also distributed well-prepared notes and recitations.

• Jongho is the best.

• Jongho is an excellent communicator. He is approachable, has a strong understanding of the material, and walks the class through challenging material in a palatable manner during his recitation sections.

• Jongho offers me the most help on learning this subject. Julian skipped too much stuff that should be lectured. Jongho's recitations were always prepared carefully, either supplementary stuff or deeper stuff than the lectures. And he gave reviews for materials in undergrad macro, which are super helpful.

2 - What is the overall teaching effectiveness of Jongho Lee?
