<div><div>• Thorough clear in presentation. However, could be more engaging and engage students more in recitation.</div><div>• Jongho Lee's strengths include his knowledge of the course content, whereas his weaknesses include his lack in clarity in explaining course content or offering homework assistance.</div><div>• Jongho Lee managed his class brilliantly, something I commend given the large number of students his session would usually have. He was always available to questions and would quickly understand the main incomprehensions students would have from the course. He would explain those and teach them very well. He also made use of all the technical tools he had at his disposal (slides, board) in his teaching, which made it more effective.</div><div>• very caring</div><div>• Jongho explains concepts clearly during office hours and is extremely helpful.</div><div>• N/A</div></div>
